Volunteer Chairman

Welcome to the 10th Annual San Marino Motor Classic and 5th Annual Symphony of Cars Gala. It seems to have been an eternity since we were last gathered in Lacy Park for the 2019 event. I want to thank our organizing committee, volunteers, sponsors, donors, judges, and exhibitors who stood steadfast and supported this event through the COVID19 Pandemic.

This year's edition of the San Marino Motor Classic includes the Ferrari Club of America Southwest Region's Concorso Ferrari the Classic Car Club of America's Grand Class and Packard International's Grand Salon. In addition to David Lee's private collection of Ferraris we are hosting for the first time the Automotive Fine Arts Society Art Exposition and Sale.

I would be remiss if I did not mention that over the past 9 years, the San Marino Motor Classic has raised over \$2.3 million that has been distributed to our charitable beneficiaries, the Pasadena Humane Society, Cancer Support Community Pasadena, and the San Marino Rotary Charities, which acts as a conduit in distributing funds to over 20 charitable organizations throughout the San Gabriel Valley. One other fact that often goes unnoticed is that the entire San Marino Motor Classic is produced by volunteers. The organization has no paid employees.

I would like to also take this opportunity to thank the San Marino City Council, the City Management Team, Police and Fire Departments, and the staff at Lacy Park for their assistance in allowing the San Marino Motor Classic to be held in Lacy Park. Thanks, must also go to the residents of San Marino, especially those who live near Lacy Park, for their understanding and support of the event.

Mention should be made that the San Marino Motor Classic, while being a car show, also brings people into our city that would most likely never be exposed to our park lined boulevards. and stately homes. The Motor Classic also brings money into our community that would probably never find its way to San Marino. In 2020 the San Marino Motor Classic pledged \$50,000 for the refurbishment of Lacy Park Rose Garden. Your support of the San Marino Motor Classic is essential for the event continuing to be a contributing element in our community.

I would like to give my thanks to David Kuntz, KABC Automotive Reporter, and Ed Justice, Jr., who are our Master of Ceremonies for our event. The San Marino Motor Classic could not go on without SMMC Chief Judge John Milliken and Assistant Chief Judge Allan McCrary along with Concorso Ferrari Chief Judge Bruce Leeds and Concorso organizer Jim Bindman. I am grateful for the support of the Classic Car Club of America, Ron Verschoor, Paul Whitney and Fred Lax who together with Robert Escalante and Tom Shiel of Packards International are responsible for bring many of the pre-war classics to Lacy Park.

When you look around and take in the entire ambience of the San Marino Motor Classic, thanks must be given to Rod Miller, Operations Chairman, and the recipient of the 2019 Ben Reiling Memorial Volunteer Award for outstanding service. This award will be presented at the Symphony of Cars Gala at which time Dennis Kneier our Treasurer for the past 10 years will be the 2021 recipient.

It has been a pleasure for my committee to bring this event to San Marino's Lacy Park, and I hope that you will all enjoy the day!

Best personal regards,

Aaron Weiss  
Chairman

Council Member

**Gretchen**  
Shepherd Romey  
Council Member

**Steve Talt**  
Council Member

The San Marino City Council is pleased to have the Motor Classic return to Lacy Park.

We and our community especially appreciate the various contributions the Motor Classic has made to the City; such as, its contributions to Centennial Field and the playground at Lacy Park.

We hope you enjoy your day at the Motor Classic here in San Marino.

Mayor Ken Ude

*The San Marino City Council consists of five members, elected by residents. Council Members serve without any financial compensation and elect one of their own to serve as Mayor annually. No City of San Marino funds were expended on this advertisement.*

# JUDGES

## JOHN MILLIKEN – CHIEF JUDGE

John is a former Air Force pilot who served two tours in Vietnam (1969 and 1972) where he flew transports and B-52 bombers. After his military service, John continued on as a pilot in the private sector for Western and Delta airlines. He captained the L-1011, MD-11, and Boeing 767 and flew domestic, European, and Asian routes, retiring in 2004 after twenty-eight years with the airlines. For over fifty years, John has been involved with classic cars - from restoring to judging, advising to authoring - John has offered his talent in many capacities. He has restored over forty cars with a particular interest and fondness for the American Classics from the 1930s, especially the GM and Packard convertible sedans. John is also an accomplished author having written over sixty articles for publication in vintage car and club magazines. Currently a Master Judge for the Classic Car Club of America, John is also in his ninth year as the Chief Judge for the SoCal Region of CCCA. In addition, John has been a Head Judge for the Santa Barbara and Palm Springs Concours and is in his second year as Head Judge for the San Marino Motor Classic. He has also been Director of both the Oregon and SoCal Regions of the CCCA. John parks his cars in Westlake Village with his wife of thirty-three years, Leslie. He is especially proud to include his son, Pierce (named after a 1936 Pierce Arrow John once owned) as an apprentice judge at today's show.

## ALLAN MCCRARY – ASSISTANT CHIEF JUDGE

Allan McCrary has been a member of the Auburn Cord Duesenberg Club since 1974, serving on it's Board of Directors, as President and is currently the National Chief Judge where he was instrumental in developing recently revised judging standards that focus on authenticity for the three marques. He is also a Classic Car Club of America (CCCA) Accredited Judge. He is a member of the American Bugatti Club, the 356 Registry and the CCCA where he has participated in ten CARavans. Allan serves on the Advisory Board for the Serrano and Lincoln Hills Concours, is a consultant for the Academy of Art University Collection and has assisted the Head Judge of the San Marino Motoring Classic for the last five years. He maintains a eclectic collection of automobiles covering a wide range of interests; Classics, Post War German and British Sports cars and American Luxury / Muscle. In addition, he holds a Sports Car Club of America Full Competition License. He is a retired pilot with three careers in aviation; as a Colonel in the United States Air Force, Branch Chief for the National Aeronautics and Space Administration and as a Captain for Southwest Airlines.

## TOM J. SCHEIL – CHIEF JUDGE, PACKARDS INTERNATIONAL, GRAND SALON

Tom has been an active member of the collectable car community since the early 1960's, having purchased his first antique car (a 1931 Chrysler rumble seat coupe) in 1962. Subsequent purchases followed in the late 60's and mid 70's including a 1934 Packard Phaeton, a 1949 Packard sedan, and in the year 2000, a 1968 Rolls Royce. Tom personally restored his Packard Phaeton over a period of 11 years, finally completing this task in 1979. As a member of Packards International, Packards Automobile Classics, the Antique Automobile Club of America, The Classic Car Club, the Chrysler Club, and the Rolls Royce Club, for many years, Tom has personally judged for these clubs over the years. Originally born in New Jersey and having lived there for 40 years, Tom was a member of the CCCA Metropolitan Region Classification Committee in the 70's, and after moving to southern California in 1979, became an active member of the Southern California Region of CCCA and also a member of their Classification Committee. Being very active in the Packards International Car Club since moving to California, Tom has held the Head Judge position for the last 8 years.

# JUDGES

## **JOHN NOLAN – CHIEF JUDGE, CLASSIC CAR CLUB OF AMERICA, SOUTHWEST GRAND CLASSIC**

John Nolan, the Chief Judge for the Classic Car Club of America ("CCCA") Grand Classic portion of the 2021 San Marino Motor Classic has been a member of the CCCA for more than 35 years. During these years he has served as Chief Judge of a prior Grand Classic and organized and directed the only CARavan held by the Southern California of CCCA. John has also frequently judged at Palos Verdes, Dana Point, and Huntington Beach. John is a former Director of the Southern California Region, and has been a CCCA Master Judge (#127) since 2001. He is a Cadillac devotee, and a long-time member of the Cadillac-La Salle Club, owning 4 Classics: 1937 Cadillac 75 Limousine, 1941 Cadillac 60 Special (Senior 1279), 1941 Cadillac convertible coupe, 1941 Cadillac 62 deluxe coupe. John is an attorney, living in Redlands, with his wife Cesca, in a historic 1897 home.

## **BRUCE LEEDS – CHIEF JUDGE, FERRARI CLUB OF AMERICA**

Bruce Leeds is a native Californian who grew up in the San Gabriel Valley close to Lacy Park. He discovered Ferraris reading Road & Track magazine when he was 13 and has been a fan ever since. He has made 2 pilgrimages to the Ferrari factory in Maranello and has toured many of the classic automotive design studios in Italy. Bruce has been a judge of many types of cars. He judged 55-56-57 Chevys at several national conventions and was a class manager and judge for several years at the Palos Verdes Concours. He also judged Ferraris for 8 years at the Concorso Ferrari. His own Ferrari - a 575M Maranello - has won 13 Platinum awards. This year Bruce will be the Chief Judge at the Concorso and looks forward to an outstanding display of Prancing Horses. Bruce and Peggy - his wife of 49 years - enjoy participating in Ferrari Club of America events and taking their Ferrari out on the road.

## **1909 OLDSMOBILE, MODEL X3 TOURING**

Owners: Bonnie & Ray Kinney, Dallas, Texas

Musical Composition – Swing Low, Sweet Chariot

Composer - Wallis Willis

This rare, and only existing Model X3 Oldsmobile was the first automobile registered in the town of Watrace, Tennessee. The car was owned by the original owner and his family until 1989 when it was sold at auction. Its new owner immediately began a frame off restoration that was completed in 1997. In August 1997 the car was featured as the Oldsmobile Centennial in Lansing, Michigan. The car's engine is a four-cylinder, with jug-type cylinders cast in pairs. It develops 35/40 horsepower. The bottom half of the engine is cast aluminum with a cast-aluminum oil pan, an oil pump and a water pump. The transmission has three speeds forward and one reverse. The parking brake acts on the rear wheel drum brakes, and the foot-pedal brake acts on the drive-shaft drum. The frame is steel, and the body is all wood. The wheels are wood-spoke artillery type. All trim, the lights and the plumbing are brass, and it has acetylene headlights and kerosene cowl and taillights.

## **1914 MOLINE KNIGHT SD OPERA SEDAN**

Owner: Sandy Hansen, Valencia, California

Musical Composition – Colonial Bogey

Composer – Lt. F.J. Ricketts aka Kenneth J. Alford

This car was originally licensed in California in 1915 and still has the brass CA registration tag 59442. This beautiful Moline Knight was purchased to transport opera stars and guests of the San Francisco Opera. The large windows were perfect for being seen and for viewing. It has a spacious back seat with plenty of leg room for their beautiful gowns. The front has seating for the chauffeur and the doorman. The Moline Knight remained in San Francisco for three generations and was sold in 1977 to Mr. Ward of Ukiah, California. The car was kept in storage but fell into disrepair until 2014 when it was purchased by Ron & Sandy Hansen. The Moline Knight underwent a complete 4-year frame off restoration, this exceptional car is now ready to be shown. The Moline Automobile Co. of Moline, Illinois manufactured cars from 1914 to 1919, however the Moline Knight was only manufactured from 1914 to 1919. Per the Moline Knight registry there are only three 1914 MK-50's that still exist, and this is the only Closed Car Opera Coupe. The Moline Knight features a sleeve valve engine which was superior to poppet valve engines for its efficiency, durability and silence.

## **1914 PACKARD MODEL 138**

Owners: Janice & Joe Conzonire, San Marino, CA

Musical Composition – By the Beautiful Sea

Composer – Harry Carroll. Lyricist – Harold J. Atteridge

In December of 1912 Packard introduced a smaller six, the Model 38. The engine had an L-head design with cylinders cast-in-pairs and displaced 415 cubic-inches, had seven main bearings, and developed 60 bhp. The Model 38 was Packard's first car to have left-hand drive and electric starting, the latter from a Delco starter-generator of the type developed by Charles Kettering. The electrical system had a control unit attached to the steering column. This design was the work of chief engineer Jesse Vincent, who would later design the Twin Six and Liberty aircraft engines. The control unit had switches for the ignition, lights and horn, an ignition lock, and mixture control for the carburetor. The Model 38 sold for \$4,050 to \$5,400. The Touring was the most popular Model 38 body style, and the only one to open style on the intermediate 138" wheelbase.

## **1931 DUESENBERG MODEL J DERHAM TOURSTER**

Owners: Hon. Joseph & Maggie Cassini, West Orange, New Jersey

Musical Composition – Mood Indigo

Composer – Duke Ellington

The Tourster was legendary car designer Gordon Buehrig's favorite Duesenberg. There is a lot to say about this handsome automobile, but the fact is that out of all of the creations that the master designer drew up for the mighty Model J, he preferred the Tourster, which speaks loudest of all. The design was for a five-passenger touring car on the long 153.5-inch wheelbase Model J chassis, which in his 1972 autobiography, *Rolling Sculpture*, Buehrig described it as being "severely plain in ornamentation and

# SYMPHONY OF CARS GALA

[having] the unusual virtue of being equally handsome with the top in the raised position or when it is lowered." The length of the chassis exaggerated the car's lowered proportions, created by moving the rear seat ahead of the rear axle and the foot wells within the frame rails, which increased room for passengers while also allowing the top and sides of the body to be lower than on a standard phaeton. With the Tourster, Buehrig also sought to solve a common problem of dual-cowl phaetons of the time. They were often equipped with second windshields to give weather protection to rear seat passengers, but these windshields were mounted on a hinged metal tonneau that had to be clumsily swung up out of the way each time a passenger entered or exited the automobile. The Tourster's solution was a rear windshield that slid up and down out of the back of the front seat with the turn of a crank handle, providing a windbreak that also looked appropriately dashing—and it stayed out of the way. The exclusive builder of the Tourster design was the Derham Body Company of Rosemont, Pennsylvania, the favored coachbuilder of the Philadelphia aristocracy. Eight original examples were built in-period; perhaps because of the great beauty of their design, all eight survive, have been restored, and remain well-cared-for in some of the world's most prominent private collections.

## **1928 LINCOLN MODEL L**

**Owners:** Susan & Steven Babinsky, Lebanon, New Jersey

**Musical Composition – The Mooch**

**Composer – Duke Ellington**

The Lincoln Model L was the top of the line in 1927. This car remains entirely original with 24,000 miles. It still retains its original top, top boot, side curtains, upholstery, paint, tools and re-capped tires from the 1950's. The paint on the body and fenders is still in very good condition, upholstery is brown leather and is extremely well preserved with only minor imperfections. The car runs and drives like it is still new. The current owner is the car's fourth caretaker who bought the Lincoln in 2019.

## **1931 MARMON V16 SEDAN**

**Owners:** Amy & Stephen Plaster, Lebanon, Missouri

**Musical Composition - Goodnight Sweetheart**

**Composer – Ray Noble, Jimmy Campbell and Reg Connelly**

When the Marmon Motor Car Company introduced its new V-16 models for 1931, the Indianapolis automaker already had two strikes against it: The Great Depression had decimated luxury car sales, and rival Cadillac had beaten it to market with a V-16 of its own. Less than 400 Marmon Sixteens were built before the company ceased automobile production in 1933, and of these, roughly 75 remain today, including an estimated six LeBaron-bodied coupes. When Howard Marmon began work on what was to be the world's first 16-cylinder automobile engine in 1926, development was carried out by the Midwest Aircraft Company to keep the project a secret from his competitors. Manufactured primarily from weight-saving aluminum with steel cylinder liners for durability, Marmon's overhead valve, 491-cu.in. V-16 was rated at an impressive 200 horsepower. At 930 pounds assembled, the Marmon engine was relatively light, reportedly enabling the Sixteen to out-accelerate a Duesenberg Model J for roughly a third of the price. Unfortunately for Marmon, the project didn't remain secret long enough. Engineer Owen Nacker was lured away by Cadillac, which developed a V-16 of its own for the 1930 model year. The Cadillac engine displaced 452-cu.in. and made just 165 horsepower – 35 hp less than the Marmon – but carried a higher price tag. Marketability aside, Cadillac was backed by GM, giving it the financial resources to weather the Depression, something that Marmon lacked. In 1933, Marmon ended its automobile production, merged with Herrington, and focused on production of automobile parts and all-wheel drive trucks.

## **1933 CADILLAC V16 FLEETWOOD CONVERTIBLE COUPE**

**Owner:** John Groendyke, Enid, Oklahoma

**Musical Composition – Stormy Weather**

**Composer – Harold Arlen & Ted Koehler**

The Cadillacs of 1933 were at the forefront of design, with streamlined bodies, sectioned bumpers, a vee-shaped grill with a standard painted or optional chrome radiator shell. The front and rear fenders received skirts, the radiator filler cap was placed under the hood. The 452 cubic-inch engine was backed by a three-speed selective, synchromesh transmission with a twin-disc clutch. Stopping power was provided by mechanical brakes on all four wheels with 15-inch drums and vacuum assist. The suspension was comprised of a solid front axle with semi-elliptic leaf springs and hydraulic dampers, and a 3/4-floating rear axle with semi-elliptic leaf springs. Cadillac announced it would build 400 vehicles for the 1933 model year but ultimately built just 126 vehicles with most being the five- or seven-passenger sedan body style.

**MAX STUDIO**

# SYMPHONY OF CARS GALA

## **1933 DUESENBERG SJ CONVERTIBLE SEDAN**

**Owners:** Jeannie & Rob Hilarides, Visalia, California

**Musical Composition –** It Don't Mean a Thing

**Composer –** Duke Ellington

The Model SJ, a supercharged version of the Model J, produced 320 horsepower. The supercharger was located beside the engine with the exhaust pipes beneath through the side panel of the hood through creased tubes. The name 'SJ' was never used by the Duesenberg Company to reference these models.

Even though the Model J had received much attention from the press and promotional material was well circulated, sales were disappointing. The Duesenberg Company had hoped to construct 500 examples per year; this figure was never matched with a total of 481 examples constructed throughout its lifespan. Duesenberg did find customers such as Gary Cooper, Clark Gable, Greta Garbo, and James Cagney. Monarch, kings, queens, and the very wealthy accounted for the rest of the sales.

Production continued until the company ceased production in 1937. Little changed on the Model J over the years. The four-speed gearbox was replaced by an unsynchronized three-speed unit that was better suited to cope with the engine's power. The last Model SJ's produced had ram-horn intakes and installed on two short-wheelbase chassis. Horsepower was reported to be as high as 400. These examples are commonly known as 'SSJ' in modern times.

## **1934 AUBURN 1250 V12 CONVERTIBLE SEDAN**

**Owners:** Barbara & Fred Lax, Malibu, California

**Musical Composition –** Moon Glow

**Composer -** Benny Goodman

One of three surviving of only 27 of the rare Auburn V-12 Phaeton Salons built, and was completely restored to original authentic specifications, engine out, body up, and frame off during 2009-2014.

The Auburn V-12 Phaeton Salon Convertible, was the top-of-the-line model that emerged from the floundering Auburn Automobile Company at a plant in depression-plagued Auburn, Indiana. At an original cost of \$1,745, it is powered by a Lycoming engine, displacing 391 cubic inches, featuring twin carburetors, dual exhaust, dual ratio 2-speed Columbia rear axle, Bijur lubrication system, and a beautifully finished 2-tone red/cream exterior paint design, with an authentic Potter trunk. The car weighs 4700 lbs., all carried on a 133" wheelbase by a 160 horsepower engine that is capable of carrying the car to 85 MPH. Free wheeling was standard, and a Startix system patented by Bendix automatically restarts the engine. The hydraulic brakes are assisted by a vacuum booster, and provide dash controls to adjust brake pressure to match road conditions. The car also has an original rare Philco Transitone radio.

This vehicle earned CCCA 1st Place & 100 points (Premier & Senior Emeritus), AACA National 1st Place, ACD West Coast Meet 1st Place & Best of Show, and was officially certified by ACD National.

## **1936 PACKARD SERIES 1404 CONVERTIBLE**

**Owner:** Paul Whitney

**Musical Composition –** Pennies from Heaven

**Composer –** Arthur Johnston Lyrist Jonny Burke. Introduced by Bing Crosby

In 84 years of existence, the car has had 5 owners. It was sold new in 1935 by the Packard Motor Car Company of Boston. The current owner, Paul Whitney, purchased the car in 2017. A one-and-a-half-year restoration was done and completed in time for its debut at the 2019 San Marino Motor Classic where it won Best in Class and a special award for best paint and body. In March 2020 at the San Diego/Palm Springs Grand Classic, it was judged a 100 point car and received its Senior CCCA award. The car is happily driven at least twice a month in our neighborhood and has become the favorite ride for our grandchildren- especially the rumble seat!

# SYMPHONY OF CARS GALA

## **1937 FORD DARRIN CONVERTIBLE COUPE**

**Owner:** Rich Atwell, Fredricksburg, Texas  
**Musical Composition –** One O’Clock Jump  
**Composer –** Count Basie

Howard ‘Dutch’ Darrin was a leading American designer of custom bodied cars in the Classic era. He is remembered for the custom bodies he designed for luxury cars from Duesenberg to Rolls Royce. In particular, he is noted for the many Packard Darrin’s he built for movie stars such as Clark Gable and Errol Flynn.

This Ford Model 78 Convertible was the first car built in the United States by coachbuilder Darrin after Howard ‘Dutch’ Darrin moved to Los Angeles from Paris. It was based upon the Model 78 Deluxe and giving a distinctive grille and headlights. Power was from the 60 horsepower Ford V8.

There were over 57,000 examples of the Ford in both standard and deluxe trim during 1937, but this is the only one with this style of coachwork. It is the only Darrin designed car ever built on a Ford chassis. It was designed for a man who imported Ford Jensen cars in the 1930s. This car was discovered by the current owner in 1969 while looking at a different car in a large old Oklahoma City storage building with a dirt floor. While peeking through a crack in a wall, he noticed this car.

## **1937 DELAHAYE 135 COMPETITION COUPE**

**Owner:** Mark Hyman, St. Louis, Missouri  
**Musical Composition –** Sing Sing Sing  
**Composer –** Louis Prima

For the 1936 Paris Auto Salon, Joseph Figoni decided to build a unique automobile that would showcase his vision of the outer limits of modern car design as well as the skills of his craftsmen. Working with Delahaye’s magnificent 135 Competition short chassis as a basis for his masterpiece, Figoni built a spectacular automobile that would forever be synonymous with French Art Deco design.

Figoni’s car was like nothing ever seen before, with sweeping, fully enveloped fenders front and rear, low mounted headlamps faired into the front wings, and dramatic speed-form body lines highlighted in bold contrasting colors. It caused a sensation at the Paris Salon, and soon there was enough demand for a limited run of eleven cars based on the initial design.

Chassis number 48666 is one of three Torpedo Cabriolets built on the Delahaye’s short-wheelbase 135 Competition chassis and is one of two known survivors. This car was first sold through a Delahaye dealer in Venice to a Mr. Adamek of western Czechoslovakia. It survived the war hidden away from the Germans, often spotted in and around Prague through the 1960s. Bernard Aristeguy discovered the car in 1997, complete but partially disassembled for restoration. He arranged a sale to his friend Jacques Harguindeguy, a well-known collector of superlative French coachwork. Jacques commissioned Brian Hoyt’s Perfect Reflections to perform the meticulous restoration, with invaluable input from experts including Joseph Figoni’s son Claude Figoni. Remarkably, the 48666 retained its original coachwork, exterior trim, engine, gearbox, and other significant components. Samples of the original paint were used to return the car to the same colors as it was delivered in Venice in 1937. In 2000, Harguindeguy’s passionate efforts paid off with the coveted Best in Show at the 50th Anniversary of the Pebble Beach Concours d’Elegance.

## **1946 PACKARD MODEL 1615 SERIES 2111 FASTBACK**

**Owner:** Paul Rusnak, Pasadena, California  
**Musical Composition –** Route 66  
**Composer –** Bobby Troup

Immediately after the Japanese attack on Pearl Harbor congress enacted the War Powers Act of 1941. This act required American Manufactures to focus all of their resources on building implements of war as opposed to consumer products. When the War Powers Act was repealed in 1946 American Car manufactures were faced with huge demand for cars from returning soldiers. The demand for automobiles was answered by using prewar designs and tooling until new models could be designed for the

# SYMPHONY OF CARS GALA

following model year. This 1946 Packard was one of those cars that was constructed using prewar sheet metal and tooling. Like many cars of the era, its designers took design cues from military aircraft such as its raked windshield and sloping roof line.

Packard enjoyed strong sales of the Club Sedan. It offered seating for six and for the time a large 356 cubic inch 165 horsepower engine. Of the 7,162 that were manufactured only a small percentage of that production are still in existence. This vehicle was recently treated to a complete frame-off restoration by Custom Auto Service in Santa Ana, California.

## **1950 OLDSMOBILE ROCKET 88 CONVERTIBLE**

**Owners:** Kathy & Chuck Michel, Newport Beach, CA

**Musical Composition –** Mona Lisa

**Composer –** Ray Evans and Jay Livingston **Performed by** Nat King Cole

For 1949, the Oldsmobile's Futuramic wide-line body style, which appeared the previous year on the top-of-the-line 98, was extended across the model range. The design was Oldsmobile's first post WWII design, with flow-through fenders crowned by high-set headlights. Of course, the big news was the new "Rocket" 88 OHV V-8 engine, which displaced 303 cid and developed 135 hp. At the last minute a new 88 series was introduced, using the new V-8 in the small 70 Series body. The result was electrifying for the day, with 0-60 mph in 12.2 seconds and a 19.9 second quarter mile. Clear plastic hood panels were an option, though not very practical.

The 88 came as a club coupe, a fastback two-door club sedan, a four-door sedan, and a four-door station wagon. Early station wagons were partly wood, but were replaced by all-steel in the middle of 1949. There were more than a dozen colors and four two-tone choices. In 1950, an Oldsmobile 88 convertible paced the Indy 500.

## **1957 ROMETSCH BEESKOW**

**Owner:** Scott R. Boses and Celesta Pappas-Boses, La Canada, CA

**Musical Composition –** All Shook Up

**Composer –** Elvis Presley

This three-seat cabriolet was hand-crafted by Rometsch Coachworks in Berlin, and is named after its designer, Johannes Beeskow. Produced between 1950 and 1957, they were considered the "Volkswagen for high society." The very first one was sold to the King of Sweden, and others were driven by celebrities such as Gregory Peck, and Audrey Hepburn.

The Rometsch Volkswagens were constructed entirely by hand, using a steel frame covered by a lightweight aluminum skin. The aluminum-bodied sports car was never officially blessed by Wolfsburg after 1954 VW refused to supply the long-established coachbuilders with the rolling chassis and other parts needed, so they were forced to buy complete VWs through their 50 employees.

Powered by a 1957 Porsche 356 1600 normal engine and fitted with Porsche 356 A Brakes. The design elements from the Beeskow were found later in other vehicles such as the so-called "wheelbrows" on the fenders of the Mercedes-Benz 300 SL and also the roof of the Audi TT.

## **1959 CHEVROLET RESTO ROD**

**Owner:** Vin Di Bona, Los Angeles, California

**Musical Composition –** Mack the Knife

**Composer –** Kurt Weill **Lyricist –** Bertolt Brecht **Performed by** Bobby Darin

The Chevy is an amalgamation of the front end of a '57, side of a '58 and tail of a '59 Impala, all on the platform of a 2019 Camaro SS convertible. Most all body parts are discarded on the "donor" vehicle. A new, wider, front end, hood, quarter panels, trunk and back end are fitted to the vehicle; moreover, all materials are composite. The factory black interior has been replaced with gray leather and gray on gray houndstooth fabric. The black convertible roof is factory. Fisheye tail lights and Chevy mark are period. Two tone colors of the car are: Ferrari Gray and Audi/VW Mellow Yellow. The 7-8-9 was designed and built by N2A Motors (no 2 cars are alike), in Anaheim. Gene Langmesser is the designer/builder of the car.

# SYMPHONY OF CARS GALA

## **1963 CHEVROLET IMPALA**

**Owner:** Blanca & Cesar Lozano, Paramount, California

**Musical Composition –** What Kind of Fool Am I

**Composer –** Leslie Bricusse and Anthon Newley **Performed by** Sammy Davis Jr.

The Impala was Chevrolet's most expensive passenger model through 1965 and was one of the best selling cars in North America at the time. It would remain as one of the top-selling mid-sized vehicles in the United States until the 1980s. Chevrolet used high performance and fully loaded models to attract prospective buyers into the showrooms.

The full-size Chevrolets were completely restyled for 1963, featuring two crisply defined horizontal body-side character lines in place of the diagonal accents featured on 1962 models. These third-generation Impala's were built and designed on the GM B platform with styling changes coming in the form of more trim and a boxy style. The trim and treatment were similar to the contemporary Cadillac but emphasized the sheer length of the Impala. The similarities to Cadillac were attributed to Cadillac stylist Dave Holls, who stood in for Chevrolet Chief Designer Clare MacKichan while he recuperated from a road accident.

The Impala models were very well equipped, with vinyl upholstered, extra-thick foam seat cushions, paddle-type armrests with lift-up door releases, additional insulation, and a sport-style steering wheel. Body styles included a sedan, Hardtop Sports Sedan, Hardtop Sport Coupe, convertible, and a 6- and 9-passenger station wagon. The base six-cylinder, overhead-valve engine displaced 230 cubic-inches and offered 140 horsepower. Options included 327, 409, and 427 V8 engines with power ranging from 250 to 430 horsepower. This numbers matching Chevrolet Impala has been treated to a frame off restoration using all NOS Parts.

## **1971 FERRARI 365 GTS S/4 DAYTONA SPYDER**

**Owner:** David Lee, San Marino, California

**Musical Composition –** Bridge Over Troubled Water

**Composer –** Jimmy Haskell **Recorded by** Art Garfunkel

At the 1969 Frankfurt Motor Show, the world finally got to see the latest Ferrari Spider: the 365 GTS/4. Both the public and motoring press loved the car, as it utilised the 365 GTB4's performance and mechanical features, whilst also allowed the driver and passenger to experience that true "wind in your hair" feeling!

The engine up front was the same V12 unit used in the berlinetta, with a displacement of 4.4 litres to produce a generous 352 bhp at 7,500 rpm. Power was delivered through a shaft in a torque tube to the rear-mounted transaxle, which subsequently spun the 215/70 VR 15 rear tyres after a healthy stab of the throttle by the driver.

A 'Daytona' Spider was a special proposition from day one. Of the 1,406 Ferrari 'Daytonas' produced, only a mere 121 were built as 365 GTS Spiders by Ferrari — the ultimate Prancing Horse status symbol of the time! The Ferrari 'Daytona' gained international fame thanks to Dan Gurney and Brock Yates, who won the inaugural Cannonball Baker Sea-to-Shining-Sea Memorial Trophy Dash, a race from New York to LA that covered 2,876 miles, in which the pair averaged over 80 mph! The 'Daytona' Spider found additional fame courtesy of this event, as it inspired the film The Gumball Run, in which a 'Daytona' Spider stars! This stunning Ferrari 365 is a four time Platinum Award winner at Cavallino and is shown in its original color of Fly Yellow. Adding to the provenance of the Ferrari is its Ferrari Classiche Certification. It is only one of 121 factory Daytona Spiders. It has just 26,000 original miles and was restored in Cremonini Italy.

# Experiencing Automotive History Today.

## **With the support of Mercedes-Benz Classic.**

Located in Irvine, California, the Classic Center is the only sales and restoration facility in the United States exclusively operated by Mercedes-Benz. From Genuine Mercedes-Benz Classic Parts to small mechanical services and full ground-up restorations, our work is always true to the original. Our showroom also showcases an ever-changing selection of stunning for-sale vehicles.

Mercedes-Benz celebrates the history of the automobile every day and is proud to do so especially this weekend as a partner of the 2019 San Marino Motor Classic.

To speak with our Classic specialists, call us toll-free at 1-866-MB-CLASSIC (1-866-622-5277).

State License No. 878551 C-21, C-22  
Dosh Registration #953  
[www.vikingdemo.com](http://www.vikingdemo.com)

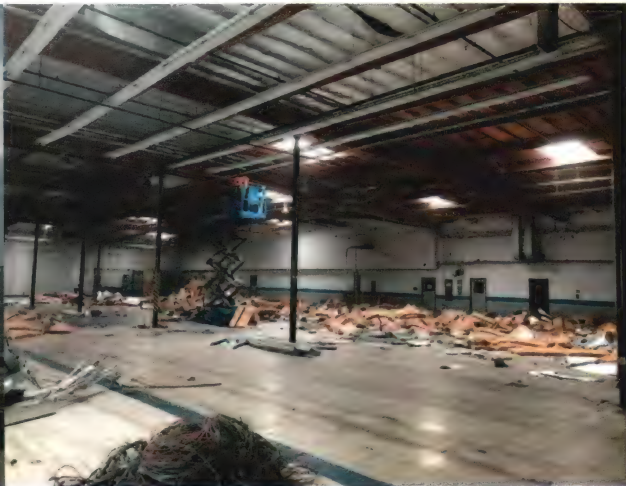

In 1965, Mike Tredick and Berger Jostad founded Viking Demolition Contractors. In 2006, Mike and Berger sold the corporation to Mike's sons, Todd and Scott. Since that time, it has become one of the oldest and most prestigious demolition companies in Southern California. Initially, our work consisted of clearing the right-of-ways for the then new freeways of Los Angeles and Orange counties. In the 1970's we shifted our focus to residential, commercial, industrial, and interior demolition as the work environment changed. And with the Sylmar and Northridge earthquakes as well as the numerous fires in the state, we began performing emergency and disaster clean-up work.

In that same decade, the Occupational Safety and Health Administration (OSHA) was formed, promulgating regulations for worker protection and the employers' due diligence to provide a safe work environment for its workforce from the physical and biological hazards found in the

workplace. We started our own asbestos abatement branch at this time. This is where we strived in the "turn key" service to our customers. We eliminated the need to use multiple contractors as well as numerous coordination issues between the client and municipal and regulatory agencies. We created a smooth project flow from start to finish.

# AUTOMOTIVE FINE ARTS SOCIETY ART EXPOSITION AND SALE

## EXHIBITING AFAS ARTISTS

### DENNIS BROWN

Dennis Brown paints automobiles. Not just any automobiles thought, but those that interest him most: antiques, classics, and racing cars. Dennis works in a variety of mediums, but the majority of his work starts out as an outline in pen and ink, followed by filling in with the transparent watercolor or acrylic. He likes layering deep, vivid colors with bright, hot highlights – the colors glistening so much the car looks freshly painted and still wet from the spray gun. His Approach to his subjects is as fresh as the look he gives them, displaying intense color and vitality. Dennis is a master at diminishing color values: the front of the car in perspective brighter and more defined than the part that's in the background.

Sometimes his cars are portrayed as a free-standing object of art but more often Dennis creates scenes in which he places the cars to give them additional life. Possibly because of his background and experience in magazine illustrations, the people in his paintings look as though they belong there. He does not paint people just to have more elements in this picture, they are there to add to the immediacy and presence of the picture. Dennis Brown's award-winning work has been commissioned by major automotive companies worldwide and is represented in private and public collections in the United States, Europe, and Japan.

Dennis is a member of the Automotive Fine Arts Society and won the AFAS award of excellence in 2004. He is also a member of the Los Angeles Society of Illustrators and a contributing artist for Road and Track and other acclaimed publications. Dennis says, "I love the automobile. I can think of no other form of transportation that has as much history or art associated with it. The automobile is always changing and always innovating. Enjoy."

### KEN EBERTS

Ken Eberts is an American painter who has been instrumental in creating the automotive art genre. These are artworks inspired by and focusing on automobiles and motorcycles as their subject matter. He is a founding member of the Automotive Fine Arts Society (AFAS), and has been its president since its inception in 1983.[2]

More than 1200 of his original paintings hang in the homes and galleries of art collectors around the world. The best known of his works include "Dad's Home" and "California Pit Stop". Eberts has created the principal posters for seven of the Pebble Beach Concours d'Elegance. In 2003, he was named Ford Motor Company's official Centennial Artist, following Norman Rockwell who had been Ford's 50th Anniversary artist in 1953.

### TOM GARNER

Tom Garners' focus is on car paintings. These paintings are "drive-by", "drive-thru", "drive-in" snapshot collages of LA. They are expressive of movement, time and recurrent memory; diaphanous and ephemeral space compressed into shiny reflective surfaces. Thomas Garner was raised in SoCal and has had a love affair with our sun-drenched Car Culture since he was a kid.

Thomas Garner studied fine arts at UCSD where Conceptual Art reigned supreme. Then he went to study at the Academy of Fine Arts in Venice where he learned Classical Venetian oil painting directly from the great Masters: Titian, Tintoretto, and Tiepolo. He ended up spending 24 years in Italy and worked in fashion as Graphic Designer and Creative Director for some of the biggest brands. He has applied his Venetian training to both his Classical and Urban paintings. He has exhibited his work widely from Milan to LA. He teaches Classical oil painting at UCLA Extension and the Kline Academy.

In his work, Photoshop is the cultural filter, a digital palimpsest that can leave residual traces of what came before, the layering of one image over another. Classical oil painting is all about glazing, scumbling and varnishing transparent layers so that what is underneath is never completely lost. The surface thus becomes rich, dense, and glassy with a great sense of depth. This Urban work tries to bridge these old and new technologies.

These paintings are on denim as opposed to linen canvas because it is more appropriate to the urban subject matter. They are masked off at the edges and sometimes silhouetted to give the sense of something cutout or expropriated from reality. They are layered, glazed and varnished in the manner of classical painting for Classic Cars!

### JOHN KRSTESKI

John Krsteski is an American automobile designer, automotive artist, and painter, who is the Chief Designer of Genesis, North America. Krsteski was born and raised in Detroit, Michigan. He studied transportation design at the College for Creative Studies in Detroit.[2]

While at CCS, Krsteski took painting classes as part of his design electives which helped in making him more expressive with cars and design. Upon graduation, he joined Johnson controls, where he worked on advanced automotive interiors at a time when the expectation for design graduates was to become exterior designers.[He described going into interior design as "An unusual step of focusing on his weakness."

"Coming out of school, I wasn't too good at interiors," he says. "At that time, students weren't being trained for interiors, because the expectation was that you'd be an exterior designer. I had an opportunity with (supplier) Johnson Controls to do interiors. I thought it was fantastic. I could go there and learn more about the inside of the car." Krsteski worked at Johnson controls for three years where he rose to become a design manager. He joined Hyundai Motor America in 2007 as a design manager,[2] where he remained for 13 years before joining Genesis Design, as a chief designer.[4][5] He started out with interiors and later transitioned to exterior design. During Krsteski's time at Hyundai, he was responsible for several concept and production vehicles, such as the Hyundai Nuvis concept,[6] Curb Concept, HCD-14 concept,[2] Hyundai Sonata, and Hyundai Genesis.[7][8] He appeared on the MotoMan TV in 2011 in a mini documentary series about the design and development of the Hyundai Curb concept. Krsteski is also an instructor at the ArtCenter College of Design in Pasadena, where he teaches automobile design.

## **RICHARD LEWIS**

Richard has been doing automotive watercolor paintings for over 30 years. Richard was trained as an architect at the Southern California Institute of Architecture. He got his Bachelors of Architecture in 1989. When he got his degree, he had the opportunity to work for a structural engineer. Thinking it would be a good thing for an architect to know how and what it takes to make a building stand up he had the plan to work there for 4-5 years and then go back to architecture. Because of recessions, having twin boys and really starting to enjoy the challenge of engineering, 25 years have gone by and he will soon be taking over the company. Richard does mostly customs homes around Los Angeles which can be pretty dramatic and tricky to engineer. Being in earthquake country with many hillside sites makes for lots of interesting challenges.

When he started the engineering firm he found he wanted to learn another skill. He chose to learn how to do watercolor paintings. The plan was to be able to do renderings for other architects when his work was slow. But, he picked cars because he always liked them. and thought they might be a better challenge. Computer drafting pretty much ended the market for doing renderings. So, Richard stuck to doing paintings of cars just to relax after dealing with architect, contractors and the building departments.

Richard and his wife have fraternal twin boys which led to his "Fraternal Series" where one car is reflected on the other but the two cars have to be related. For Richard reflections are the most challenging and exciting thing to do. Richard now spends as much as 1000 hours spreads over 18 months on a single painting. Not the best business model but that is not why he paints. He does do the occasional non automotive painting to stretch his abilities. But he always hunts for some reflections in the subjects. Whether it is the eyes in a pony or the water on a lake. Richard has shown at numerous museums and art centers around the country. Currently he has four pieces on tour with "LUSTER: Realism and Hyperrealism in Contemporary Automobile and Motorcycle Painting". Which is currently at The Art Museum of South Texas in Corpus Christi, Texas. His work has also been in a few magazines. His piece "Eye to Eye" was in the 2021 National Watercolor Society Members Exhibition. Richard ran the art displays at the Dana Point Concours D'elegance and the Greystone Concours D'elegance.

## **DAVE MAREK**

Dave Marek is Executive Creative Director for Acura. He began his career at Honda R&D Americas, Inc. in 1987 and has contributed to the designs of North American developed products for over 25 years. He served as Design Project Leader and oversaw a number of milestone products such as the 1994 Honda Accord Wagon, 1997 Acura CL, 2003 Honda Element and 2006 Honda Ridgeline before Starting Honda's first U.S. Advanced Studio in Southern California. As Acura Executive Creative Director he is responsible for all designs of the Acura brand globally.

Marek earned a Bachelor of Science in Industrial Design, graduating with honors from the Art Center College of Design in Pasadena, California and continues to be involved today. He has been an instructor at the college since 1989, has been instrumental in bringing numerous sponsored projects to the Transportation Department, serves on the Art Center Full Circle Board and has served on the Art Center Alumni Council. He is also on the Advisory Board for Operation Wheels of Freedom Foundation and as a member of the Lions Automobilia Foundation Board. Marek is also a supporter of various museums including the Petersen Automobile Museum, The Gettysburg Foundation, The California Railroad Museum, The NHRA Museum, and The Pearl Harbor Memorial. In his spare time, Marek creates fine art and graphics for numerous clients, with his art and graphics being used on various championship cars, including the Honda & ACURA team graphics and various NHRA teams most notably Don Schumacher Racing. Marek's work has

# AUTOMOTIVE FINE ARTS SOCIETY ART EXPOSITION AND SALE

been published in various enthusiast magazines including Road & Track, Racer, Street Rodder and Car Graphic as well as online at [www.davemarekdesign.com](http://www.davemarekdesign.com). Additionally, Marek is also cohost of the acclaimed podcast "Man Seeks Adventure"

## **GEOFF OMBAO**

Geoff is an award-winning creative who has worked with The Walt Disney Company, Time-Warner, Pioneer Electronics, and others to launch groundbreaking products, including: the world's first interactive television system, the first high-speed cable internet service, early digital video recording systems, and more. Geoff has garnered numerous US patents for his work. An alumnus of School of Visual Arts (graduate, and undergraduate), Geoff has taught computer graphics through SVA's continuing education program. More recently, Geoff earned a bachelor's degree in Transportation Design from Art Center College of Design, where he now teaches Human Factors & Design Psychology. Currently, Geoff creates automotive fine art (using digital methods) for print, and digital media (NFT's). He has been featured in publications such as Speedster Magazine, Driven World, Panorama Magazine, Petrolicious, Worth Magazine, and others.

## **RICHARD PIETRUSKA**

Richard Pietruska is a highly respected professor at the Art Center College of Design in Pasadena. He has taught many of the top automotive designers in the US, Europe and Asia including Frank Stephenson from McLaren, Shiro Nakamura at Nissan, Chris Bangle from BMW, Ken Okuyama from Pinin Farina, J Mays and Freeman Thomas from Ford, to name a few. He has taught for over 40 years and still enjoys teaching and sharing his knowledge of automotive design and techniques for sketching and rendering.

He is also a member of the Automotive Fine Arts Society and works mainly in 3D or sculpture using a variety of materials and processes. He has shown his sculptures at the Pebble Beach Concours D'Elegance since 1996 and at the Amelia Island Concours. His sculptures have been featured in many automotive magazines around the world including OCTANE, ROAD & TRACK, AUTOMOBILE, the ROBB REPORT, AUTOAficionado, etc. and they have been exhibited in various automotive museums and shows around the world. In addition, to the numerous awards for his work, he has won the prestigious Peter Helck Award three times in a row. His medium of choice is usually fiberglass or bronze. The sculptures are never static, and they capture the essence of speed and movement of many exotic automobiles of the past as well as the present. The forms are exaggerated and curved to dramatize the unique character and quality of each automobile as it flows through space.

Richard is also one of the few automotive sculptors to have been chosen to do the artwork for the Meadow Brook Concours d'Elegance poster. In addition, he has designed awards and trophies for AUTOMOBILE Magazine, Cranbrook Concours d'Elegance, the Petersen Museum, Lincoln, Lexus and the Newport Beach Concours d'Elegance. More of his dynamic sculptures can be found on his website: [rpsmart.com](http://rpsmart.com)

## **JAMIE SCHENA**

Jamie Schena is an Australian Industrial Designer and Artist. Each of his sculptures are bespoke hand crafted pieces made from metal. He uses discarded steel and recycled automotive parts to create sculptures, giving the scrapped material new life through industrial art. As a car designer, his art reflects automotive forms and subject matter. Generally he builds to order creating one-of-a-kind custom sculptures that can never be replicated. He started at an incredibly young age and has over 25 years' experience working with and sculpting metal. "The passion that I have for my craft and for creating art by hand truly echoes in my work and every sculpture that I create."

## **MARK STEHRENBARGER**

Mark Stehrenberger is an artist, familiar to most Road & Track and Motor Trend readers for his many projected visions of what the world's automakers are building next. Mark has also been involved with real life car design and in the past has been a consultant to various automakers such as VW, Peugeot, Renault, Ford, KIA, Subaru, Rolls Royce, Jeep, and Toyota. He resides alternately in Montreux, Switzerland, and Ventura, CA but comes over to Ventura, CA every so often to recharge his batteries

## **BRUCE WHEELER**

Bruce Wheeler is an Automotive Sculpturer. A lifelong interest in the "VISUAL" evolution of the car, included a 15 year career with General Motors Styling. Other experiences in Forensic model reconstruction, Jewelry design and construction, Exhibit Design, continuous exploration of materials, techniques and "patinas" led to his unique Sculpture process. His sculptures are created directly in metal. Their intent is to pay homage to the "Creativity" demonstrated by these early car builders and designers.
